

PROCESSES OF WORD FORMATION

First of all English language contains a core of words that have been a part of it no matter how far we trace its history. For example: sun , moon , love..

Second ,English has been a prodigious borrower of words from other languages throughout its history and a vast number of words are now in our language. This have come about through :

Invasions,

Immigration,

Exploration,

*Trade and other avenues or means of contact
between English and some other languages For
example :bazzar ,hashish ,cotton, window,
alligator....*
