Ministry of Higher Education and Scientific Research Scientific Supervision and Scientific Evaluation Apparatus Directorate of Quality Assurance and Academic Accreditation Accreditation Department

Academic Program and Course Description Guide

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

<u>Course Description</u>: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

<u>Program Vision:</u> An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

<u>Program Mission:</u>Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

<u>Program Objectives:</u> They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

<u>Curriculum Structure:</u> All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

<u>Learning Outcomes:</u> A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

<u>Teaching and learning strategies</u>: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extracurricular activities to achieve the learning outcomes of the program.

1. Program Vision

The English Department at the College of Education for Human Sciences / University of Diyala aspires to leadership in teaching and scientific research in English language and its literature locally, regionally, and globally. It seeks to provide integrated high-quality education and distinguished educational programs with modern teaching methods and educational tools. Additionally, the department aims to attract distinguished teaching staff with experience and academic excellence.

2. Program Mission

- 1. Leadership in delivering academic programs in the field of English language distinguished by research and creativity for community development.
- 2. Graduating qualified personnel in the field of English language and translating the visions and ideas of non-Arabic-speaking countries to facilitate dialogue and communication between peoples. This is only achieved by applying quality standards in providing good information to English language students.
- 3. Enhancing the intellectual, cultural, and educational level of the student through developing their linguistic, intellectual, and research skills to meet the requirements of the labor market and produce outstanding graduates to serve the community and enhance the country's reality, preparing researchers capable of keeping pace with scientific progress through scientific research and community service.

3. Program Objectives

- Preparing academic staff with a bachelor's degree tasked with leading the educational process in society.
- Graduating specialists in English language and its literature equipped with linguistic and literary skills.
- Preparing specialized academic personnel with master's and doctoral degrees to supply Iraqi universities and research institutions in society.
- Conducting basic and applied studies and holding scientific seminars and conferences that contribute to the advancement of society.
- Keeping pace with the labor market and knowledge updates.
- Empowering students in technical writing, research, and creativity.
- Fostering innovation and creativity in the field of English language.
- Focusing on the practical aspect by training students in listening and speaking skills to prepare them for dealing with English-speaking environments.
- Actively contributing to the development of textbooks, aids, and general references.
- Conducting theoretical, experimental, and comparative research in the field of English language and its literature.
- Providing scientific expertise and advice to educational institutions in the community to ensure keeping up with developments in their field of specialization.
- Refining critical and creative thinking skills among students.
- Building partnerships with the public and private sectors by conducting studies and providing consultations in the field of specialization.

4. Program Accreditation

Grammar, and Articulation of Words: **

8. Expected learning outcomes of the program

1. Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the

1. **Knowledge and Understanding of Linguistic Rules and

 Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.

English language.	- Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	Understanding modern teaching methods and their use in
	diversifying the learning process.
	- Familiarity with various assessment tools such as tests,
	projects, and group activities.
	The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	- The ability to construct coherent and accurate sentences.
develop their speaking and	- Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.
deal with communication	
situations effectively.	2. **speaking and listening skills: **
	 Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.
5	
 Providing students with 	1. **reading skills: **

guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between
 perspectives and established truths. and effectively.

- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of

- The student should
encourage their classmates to
maintain quietness in the
classroom.

 The student should appreciate the contributions of scholars and theorists in the development of the language. community and collaboration within their academic environment.

- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

9. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

10. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.

- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-

full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.

- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

12. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

13. The most important sources of information about the program

- Teaching staff.

- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

14. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program
 curriculum and teaching methodologies to promote student interaction, engagement,

and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

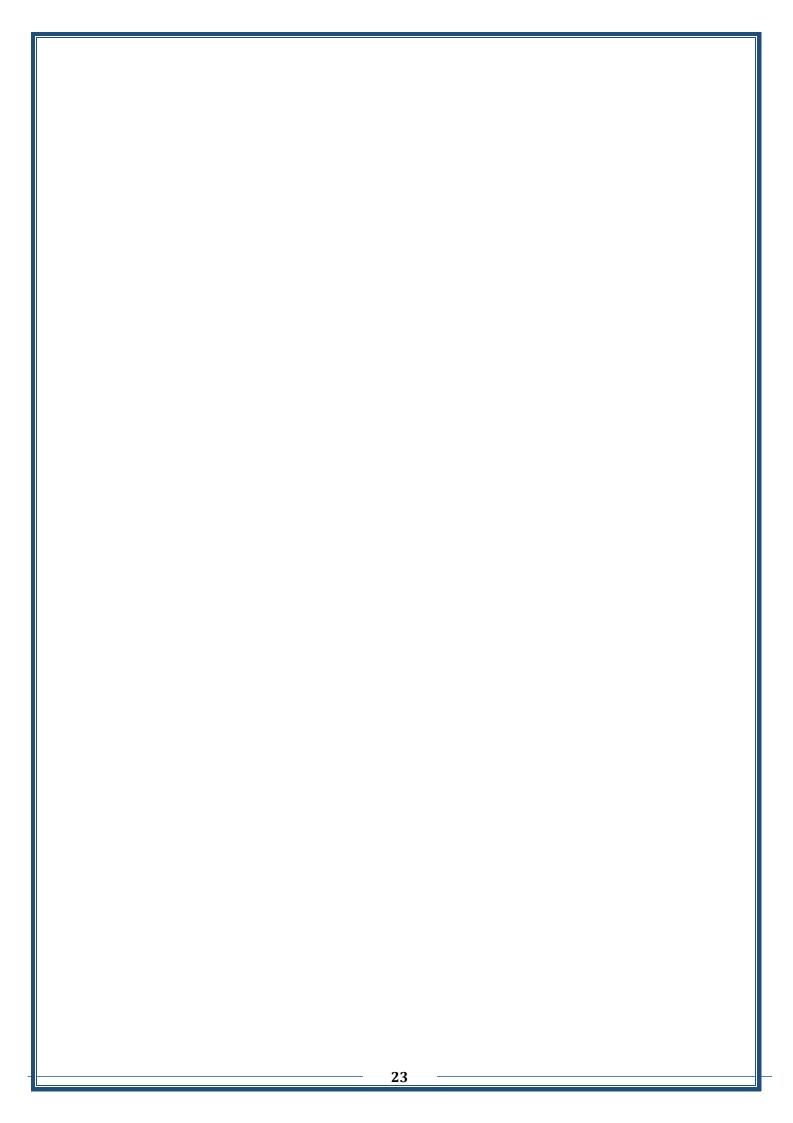

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

- The student should encourage their classmates to maintain quietness in the classroom.
- The student should appreciate the contributions of scholars and theorists in the development of the language.
- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members

to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in

external and internal professional development programs to enhance faculty members' skills.

- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the

specialization.

- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

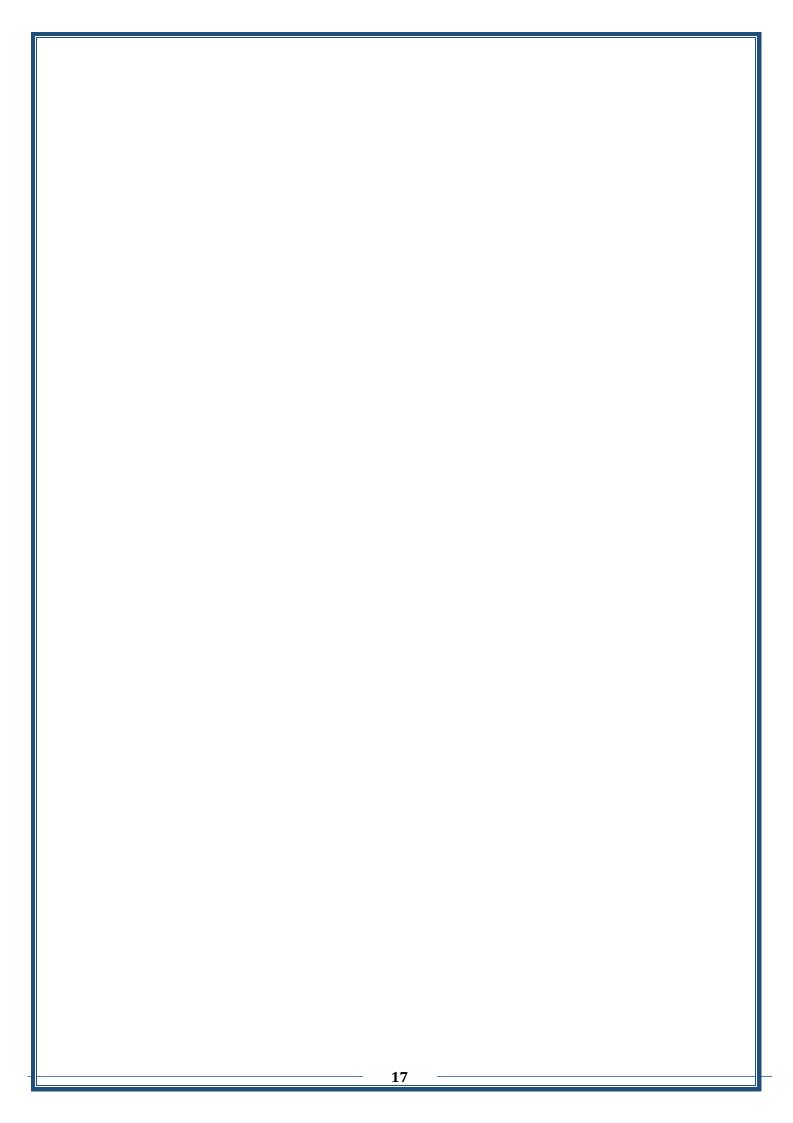

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

12. Learning and Teaching Resources						
Required textbooks (curricular books, if any)	Real Listening and Speaking with answers by Sally Logan and Craig Thaine					
Main references (sources)	Real Listening and Speaking with answers by Sally Logan and Craig Thaine

1. Program Description							
Year/Level Course Code Course Name Credit Hours							
			theoretical	practical			
First		Introduction to	2	1			
		English Literature					

2. Expected learning outcomes of the program

1. Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in

Learning Outcomes

- **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
 - Identifying their influence on the development of the English

	3 3
English language.	- Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	- Understanding modern teaching methods and their use in
	diversifying the learning process.
	- Familiarity with various assessment tools such as tests,
	projects, and group activities.
	- The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	- The ability to construct coherent and accurate sentences.
develop their speaking and	- Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.
deal with communication	
situations effectively.	2. **speaking and listening skills: **
	- Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	- Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.

language and world literature.

teaching and assessing the

Providing students with

1. **reading skills: **

reading skills and strategies, guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

- Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths.
- Developing students' ability to understand texts more deeply and effectively.
- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and

	professional contexts effectively while also fostering a sense of
	community and collaboration within their academic environment.
- The student should	1. **Promoting Discipline and Quietness in the Classroom: **

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and preparation, daily participation, and reports. Each of these activities contributes to a total grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

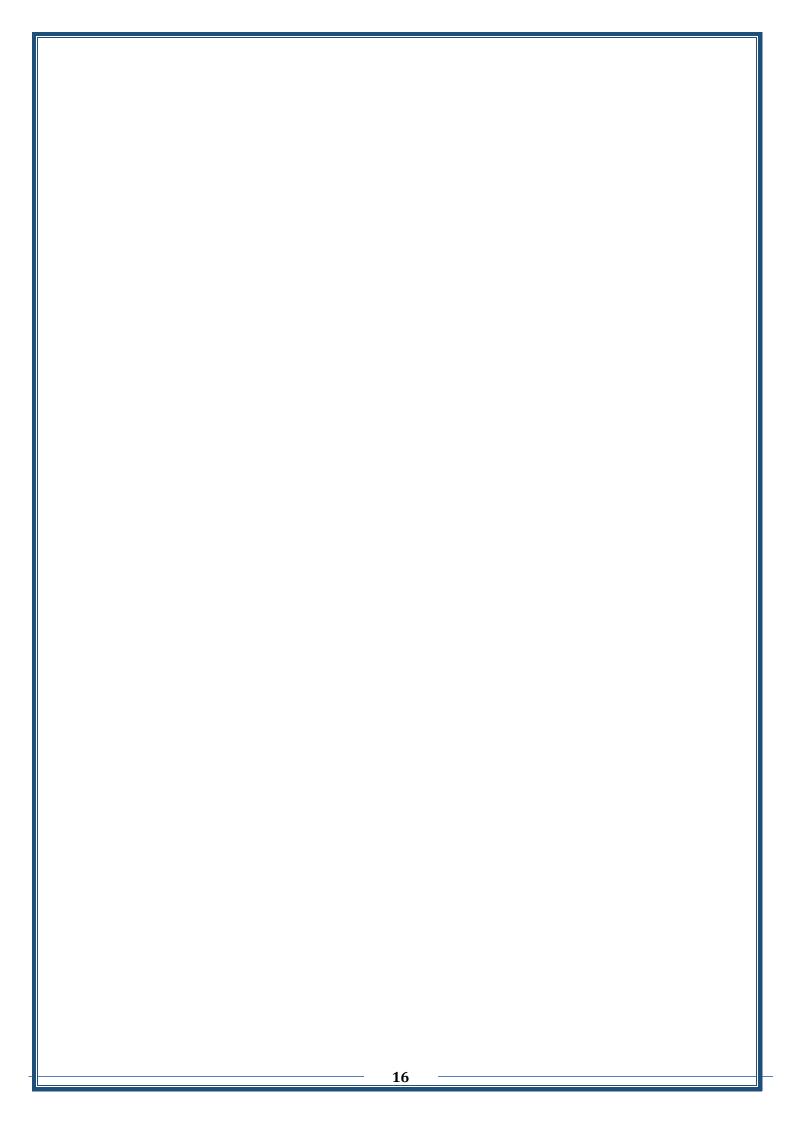

To calculate the annual grade, you would typically determine the weighted average of the g ades component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall a

2. Expected learning outcomes of the program

Knowledge Learning Outcomes

- Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.
- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

- **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

The student should describe the importance of learning the English language.

 The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation

- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Grammar, and Articulation of Words: **

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the

English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

1. **Knowledge and Understanding of Linguistic Rules and

- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

- The student should
- 1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

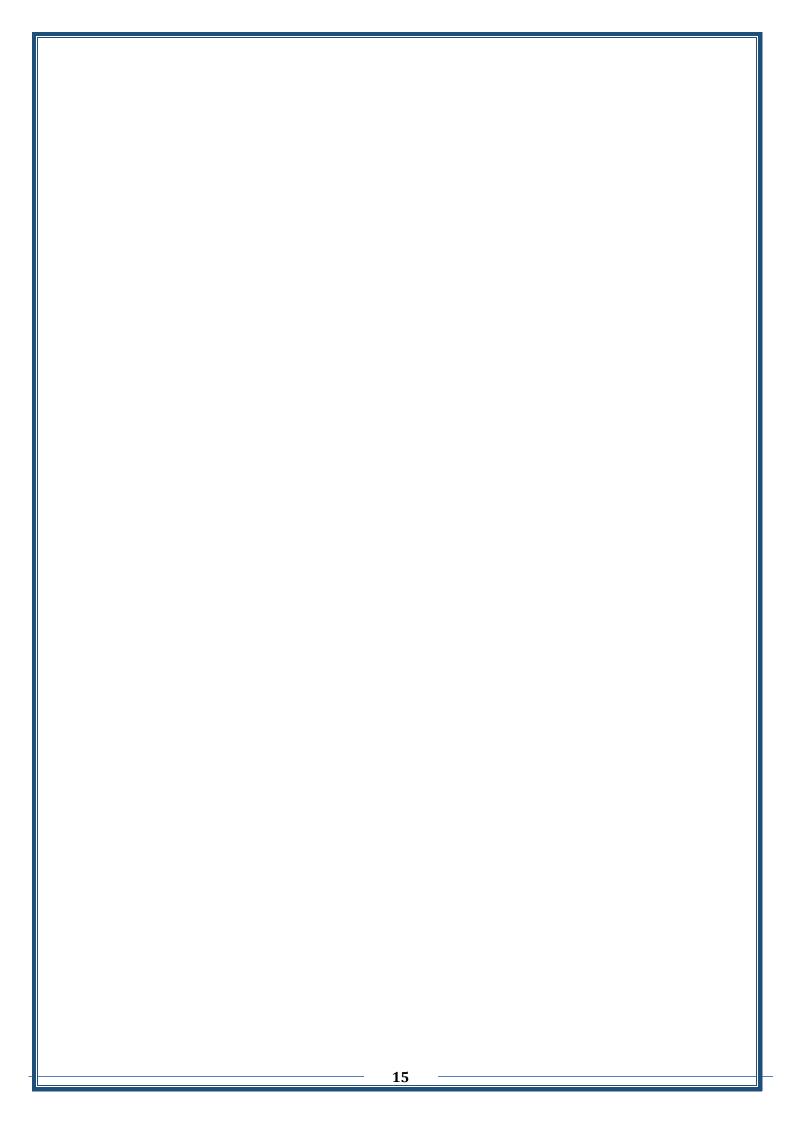

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

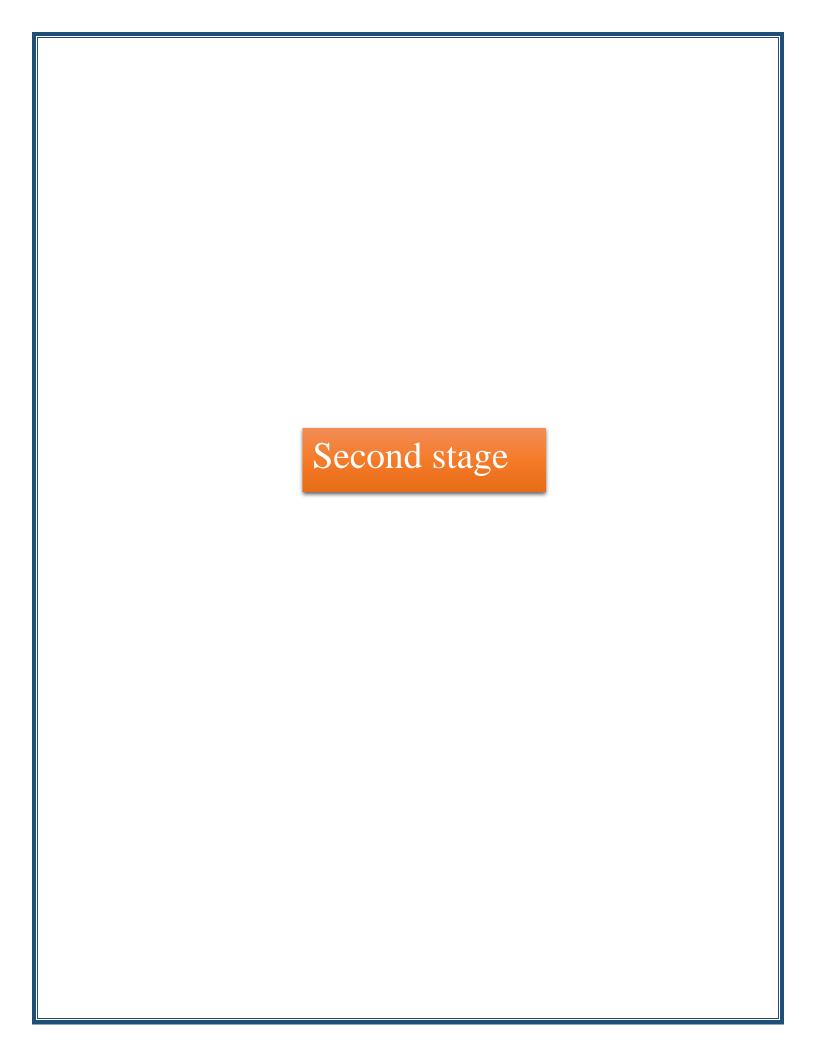

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

Grammar, and Articulation of Words: **

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the

Knowledge

English language.

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

1. **Knowledge and Understanding of Linguistic Rules and

- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

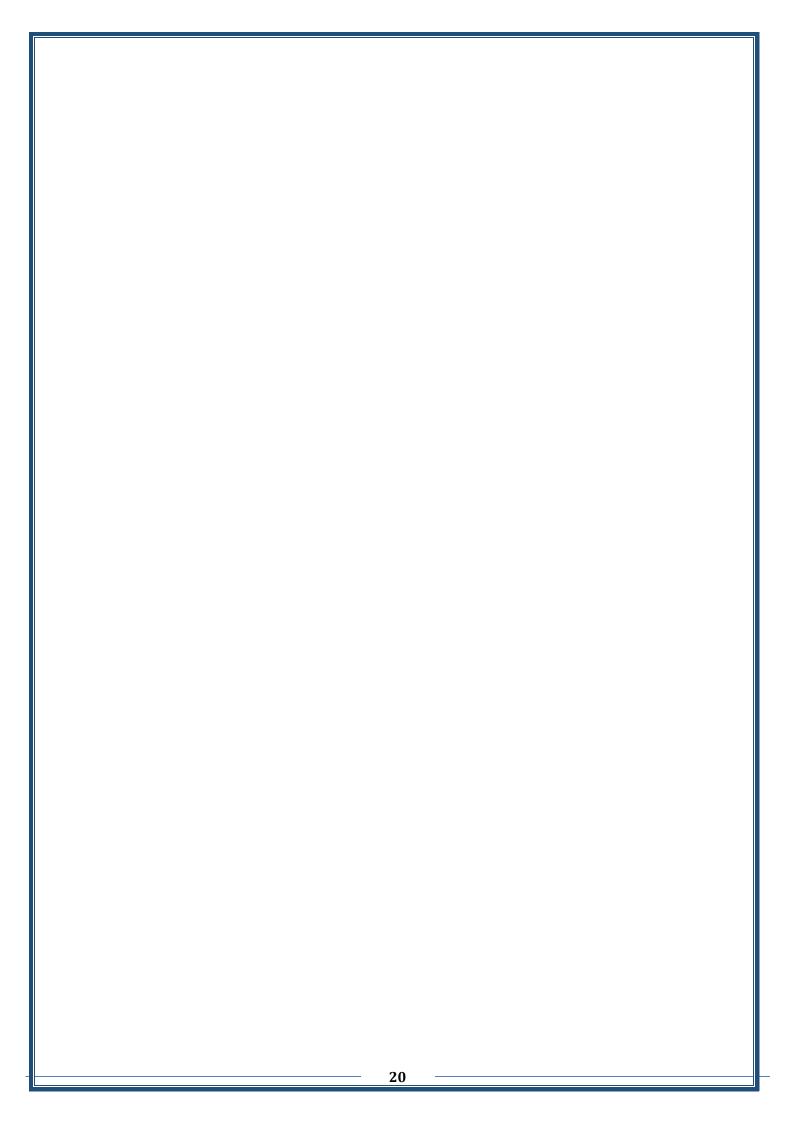

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

12. Learning and Teaching Resources	
Required textbooks (curricular books, if any)	- One Act-plays -
	-Marlow: The Tragical History of Doctor Faustus ristopher Marlow: Doctor -Faustus by Ramji Lal octor Faustus: Note

Year/Level	Course Code	Course Name	Cre	edit Hours
			theoretical	practical
second		Grammar	2	1

2. Expected learning outcomes of the program

1. Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and

**Knowledge and Understanding of Linguistic
 Rules and Grammar, and Articulation of Words: **

Learning

- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.

intellectual contributions.

- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.
- 3. **Knowledge of Prominent Literary Figures,Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.
- 4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: **
- Understanding modern teaching methods and their use in diversifying the learning process.
- Familiarity with various assessment tools such as tests, projects, and group activities.
- The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields.
 Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities.

Skills - Students are trained in 1. **writing correct sentences skills: ** - Linderstanding and applying basic linguistic at

basic language skills - Understanding and applying basic linguistic and such as precise grammatical rules in sentence writing.

sentence writing.

- Students are trained to develop their speaking and listening skills to be able to deal with communication situations effectively.
- The ability to construct coherent and accurate sentences.
- Enhancing students' ability to express ideas clearly and accurately in writing.
- 2. **speaking and listening skills: **
- Developing listening skills to effectively understand content.
- Improving oral expression skills and the ability to communicate clearly and effectively.
- Boosting students' confidence to speak in front of others and engage in social and educational situations.

These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills.

- Providing students
 with reading skills and
 strategies, guiding them
 through mechanical
 reading, reading
 techniques, and
 vocabulary usage skills.
- Developing students'
 writing abilities in
 composing research

- 1. **reading skills: **
- Developing students' ability to understand texts more deeply and effectively.
- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
 - Enhancing students' ability to write research

papers and reports,
emphasizing the
extraction of facts and
fostering their ability to
distinguish between
perspectives and
established truths.

papers and reports proficiently and systematically.

- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts. Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

Learning Outcomes

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.
- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language
 proficiency in global communication and opening new
 opportunities in scientific, social, and cultural fields.
- **Participation in Classroom and Extracurricular
 Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
 - Enhancing communication skills and fostering

positive social relationships within the classroom. These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment. - The student should 1. **Promoting Discipline and Quietness in the encourage their Classroom: ** classmates to maintain - Encouraging students to maintain guietness in quietness in the the classroom contributes to improving the learning classroom. environment and enhances focus and attention during The student should lessons. appreciate the Developing students' respect and self-discipline contributions of scholars skills. and theorists in the 2. **Appreciating the Contributions of Scholars and Thinkers: ** development of the - Students' ability to understand and appreciate language. the role of scholars and thinkers in the development of language and culture. Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural

3. Teaching and Learning Strategies

 Providing students with the fundamentals and topics related to knowledge and systems outlined in A.

contributions of others.

- Clarifying and explaining course materials by the teaching staff using various

classroom techniques to capture students' attention.

- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members,
 visitors, and non-full-time staff, which involve reviewing policies, procedures, and
 available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members,
 visitors, and non-full-time staff to integrate into the academic community through
 opportunities for communication and interaction with colleagues, staff, and

students.

- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

 Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.

- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
 - Market Needs Survey: Conducting surveys and interviews with employers,

graduates, and faculty members to identify the skills and knowledge required in the job market.

- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with

market	requirements	and	provide	training	and	employment	opportunities	toı
students.

17/9/2023	
5. Available Attendance Forms:	
Total Attendance / second grade	
6. Number of Credit Hours (Total) / Number of Units (Total)	
90	
7. Course administrator's name (mention all, if more than one name)	
Name: Wassan Adulhadi Abdulameer / Assist. instr. Shahad Z. Naji	
Email: wasan.en.hum@uodiyala.edu.iq / shahad.en.hum@uodiyala.edu.iq	
8. Course Objectives	
Course • A-Cognitive objectives	
Objectiv • 1- recognizing and understanding the basic structure of words and the types	
2-recognizing and understanding the morphological and grammatical rules of	
3- recognizing and understanding the types of words (simple, compound, compound, compound).	1
• 4- recognizing and understanding the processes available for words formation	in E
that make up a specific expressionetc.	
5- recognizing and understanding the basic English sentence patterns accor	ing to
B - The skill objectives of the course.	
• 1 – The ability to analyze various words into their basic morphemes.	
2 – The ability to use types of inflectional and derivational affixes and to disti	ı guish
3 – The ability to use simple, compound and complex words	
• 4- The ability to use different English sentence patterns to construct gramma	cal a
9. Teaching and Learning Strategies	
Strate	
- Presenting the material on PowerPoint in detail, supported by example	
presented, and helping them participate by giving examples and asking	uest

- Helping students learn and self-explore knowledge by visiting the colle se like
- Dividing the students into groups work and assigning them to prepare and and assign scores for their performance. This represents the practical as pect
- Presenting the material in different ways, such as dividing the section is adjectives and vice versa, or giving examples of grammatical constructions, on which give more correct answers. Grades are given to encourage students and students of the section is a such as dividing the section is adjective and vice versa, or giving examples of grammatical constructions, or which give more correct answers.
- Forming discussion groups during lectures to discuss the material to help the

10. Course Structure

Week	Hours	Required Learning	Unit or subject name	
		Outcomes		
1-8	24	know the levels of linguistic analysis. Know the definition and different classifications of morphemes	Affix&base	Ch
9-10	6	Know the types of words according to th morphemes the consist of (simple, compound and complex)		nd a
11	3	Know the processes by which different wo are d formed in English	Processes of word formation	
12-14	9		(noun, verb&adgrctive)Inflectional paradig	ns&
15-17	9	Know the correct order of words to constr well-formed meaningful sentences throug the nine basic English sentence patterns presented by Stagaberg		
18-26	27		_	
27-30	12	Know how to use different parts of speech noun modifiers	Pre& post modification	

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities it clud activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade. To calculate the annual grade, you would typically determine the weighted average of the Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the stu

2. Expected learning outcomes of the program

Knowledge Learning Outcomes

- Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.
- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

- **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

The student should describe the importance of learning the English language.

 The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation

- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily an monthly exams, preparation, daily participation, and reports. Each of these activities contributed to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades arne in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's vera annual grade.

- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

- **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

The student should describe the importance of learning the English language.

 The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation

- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Course Description Form

1. Course Name:

Teaching English as a Foreign or Second Langauage

2. Course Code:

3. Semester / Year:

2023-2024

4. Description Preparation Date:

17/9/2023

5. Available Attendance Forms:

Face to Face

6. Number of Credit Hours (Total) / Number of Units (Total)

90

7. Course administrator's name (mention all, if more than one name)

Name: A. Inst. Narges Abd Alkarim Ismail / Assist. Instr. Mohammed Qais Email: narjis.en.hum@uodiyala.edu.iq / mohammed.en.hum@uodiyala.edu.iq

8. Course Objectives

Course Objectives

- 1. Enabling students to accurately understand the types of self-development methods of an English language teacher during the school year.
- 2. We expect to know, distinguish and explore between methods of teaching the English language.
- 3. All the different principles of teaching methods and techniques required during the school year.
- 4. Requests from the classroom management application for the required method of teaching requests during the school year.
- 5. Asking students to choose and apply effective strategies for the method required to teach students during the school year.
- 6. Empowering students with methods of teaching the English language during the school year.
- 7. Assess students' skills in using and applying traditional language teaching skills, strategies, and techniques.

9. Teaching and Learning Strategies

Strategy

- E-learning method using PowerPoint
- Method of questioning and discussion
- Brainstorming method

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

2. Expected learning outcomes of the program

1. Knowledge and understanding of linguistic rules, grammar, and

pronunciation of words in the English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

Learning Outcomes

- 1. **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.
- 4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: **
- Understanding modern teaching methods and their use in diversifying the learning process.
- Familiarity with various assessment tools such as tests, projects, and group activities.
- The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields.

Achieving these outcomes enhances students' skills in understanding and using the English language more effectively.

	Furthermore, it contributes to the comprehensive development of their academic and communication abilities.
Skills	Learning Outcomes
 Students are trained in basic language skills such as precise sentence writing. Students are trained to develop their speaking and listening skills to be able to deal with communication 	**writing correct sentences skills: ** - Understanding and applying basic linguistic and grammatical rules in sentence writing. - The ability to construct coherent and accurate sentences. - Enhancing students' ability to express ideas clearly and accurately in writing.
situations effectively.	 2. **speaking and listening skills: ** Developing listening skills to effectively understand content. - Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:

- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities, and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.

- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers, graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

7. Course administrator's name (mention all, if more than one name)

Name: Dr. Abdulkareem Yaseen

Email: Abdulkareem.env.hum@uodiyala.edu.iq

8. Course Objectives

Course Objectives

- Teaching students the phonetics of the English language and contributing to the professional development of English students.
- Providing students with the necessary information to pronounce English sounds correctly.
- Recognizing the articulation of letters, ways of pronouncing sounds, their formation, and whether they are voi ed or
- Providing students with detailed information about phonetic processes in the English language.
- Equipping students with the information and skills necessary to teach phonetic aspects.
- Providing students with the information and skills necessary to understand and comprehend the English language, p for social communication with English speakers.
- 9. Teaching and Learning Strategies

Strategy

- Memorization or recalling information and understanding it.
- Comprehension and assimilation, including:
- 1. Developing mental abilities and skills.
- 2. Translation.
- 3. Interpretation.
- 4. Inductive reasoning.
- Application: Using abstract ideas in new and concrete situations.
- Analysis: Breaking down the material into its constituent elements, tracing the relationships between the parts, and org
- Synthesis: Putting elements and parts together so that each becomes a whole.
- Evaluation.

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and morphy preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades ea ned is component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall an ual g

2. Expected learning outcomes of the program

1. Knowledge and Grammar, and Articulation of Words: ** understanding of linguistic rules, grammar, and

English language.

Second

Knowledge

2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.

pronunciation of words in the

- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the

- 1. **Knowledge and Understanding of Linguistic Rules and
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

2

0

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.

English language.	Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	, ,
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	 Understanding modern teaching methods and their use in
	diversifying the learning process.
	 Familiarity with various assessment tools such as tests,
	projects, and group activities.
	- The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	 The ability to construct coherent and accurate sentences.
develop their speaking and	 Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.
deal with communication	
situations effectively.	2. **speaking and listening skills: **
	 Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.
- Providing students with	1. **reading skills: **
reading skills and strategies,	Developing students' ability to understand texts more deeply

guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. and effectively.

- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of

- The student should
encourage their classmates to
maintain quietness in the
classroom.

 The student should appreciate the contributions of scholars and theorists in the development of the language. community and collaboration within their academic environment.

- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.

- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.

- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment

results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

11. Course Evaluation

The annual grade consists of 2two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the stude it's overall annual grade.

12. Learning and Teaching Resources

		4
Required textbooks (curricular books, if any)	English Poetry (The Sixteenth Century)	
	English Poetry (The Seventeenth Century)	
Main references (sources)	Concise anthology of English	
,	poetry for second year students	
Recommended books and references (scientific journals,	World and Iraqi periodical	
reports)		
Electronic References, Websites	Encyclopediabritanics.com	

1. Program Description

			theoretical	practical				
Second		Reading	2	0				

Grammar, and Articulation of Words: **

Reading

2. Expected learning outcomes of the program

1. Knowledge and understanding of linguistic rules, grammar, and

pronunciation of words in the

English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the

- 1. **Knowledge and Understanding of Linguistic Rules and
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.

English language.	Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	, ,
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	 Understanding modern teaching methods and their use in
	diversifying the learning process.
	 Familiarity with various assessment tools such as tests,
	projects, and group activities.
	- The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	 The ability to construct coherent and accurate sentences.
develop their speaking and	 Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.
deal with communication	
situations effectively.	2. **speaking and listening skills: **
	 Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.
- Providing students with	1. **reading skills: **
reading skills and strategies,	Developing students' ability to understand texts more deeply

guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. and effectively.

- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of

- The student should
encourage their classmates to
maintain quietness in the
classroom.

 The student should appreciate the contributions of scholars and theorists in the development of the language. community and collaboration within their academic environment.

- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.

- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and

providing an opportunity for questions and inquiries.

- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.

- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Reading	
2. Course Code:	
2 C / V	
3. Semester / Year:	
2023-2024	
4. Description Preparation Date:	
17/9/2023	
5. Available Attendance Forms:	
Second '	Year
6. Number of Credit Hours (Total) / Number of U	Units (Total)
(60)h	
7. Course administrator's name (mention all,	, if more than one name)
Name: Instr. May Tahseen Hameed	
Email: may.en.hum@uodiyala.edu.iq	
8. Course Objectives	
Course Objectives	Develop listening and
	speaking skills
	Improving students ability '
	to communicate effectively
	a in spoken language with
	reasonable degree of
	fluency and accuracy in
	different social settings and
	genres Various social
	meetings
	Increase fluency and
	confidence in speaking and
	Familiarizing students with
	the ways native speakers
	pronounce and enunciate
	different language units.
	Developing students'
	abilities to assimilate
	meaning and comprehend

maximum number o	f
sentences in natura	ı
contexts.	

9. Teaching and Learning Strategies

Strategy

- Encouraging active listening: Teach students active listening techniques such as maintaining eye contact, asking questions, and paraphrasing to ensure comprehension.
- Pair and group discussions: Encourage students to engage in conversations with their peers, actively listening and responding to each other.
- Role-playing exercises: Use role-playing to simulate real-life situations and enhance listening skills.
- Audio recordings and podcasts: Play audio recordings or podcasts that require active listening and comprehension.
- Engaging in meaningful conversations: Create opportunities for students to engage in conversations that promote critical thinking and expression of ideas.
- Common use of phrases used on a daily basis among native speakers of the language.
- Providing linguistic support and correct instructions to students regarding vocabulary, grammar, and adaptation to different accents.
- Urging students to participate in direct communication by training students to express their opinion and disagreement with other speakers.
- Increase cultural awareness by discussing cultural topics of multiple sources and differences.
- Resolving exercises, assignments and small class discussions.

11. Course Evaluation

The annual grade consists of two components:

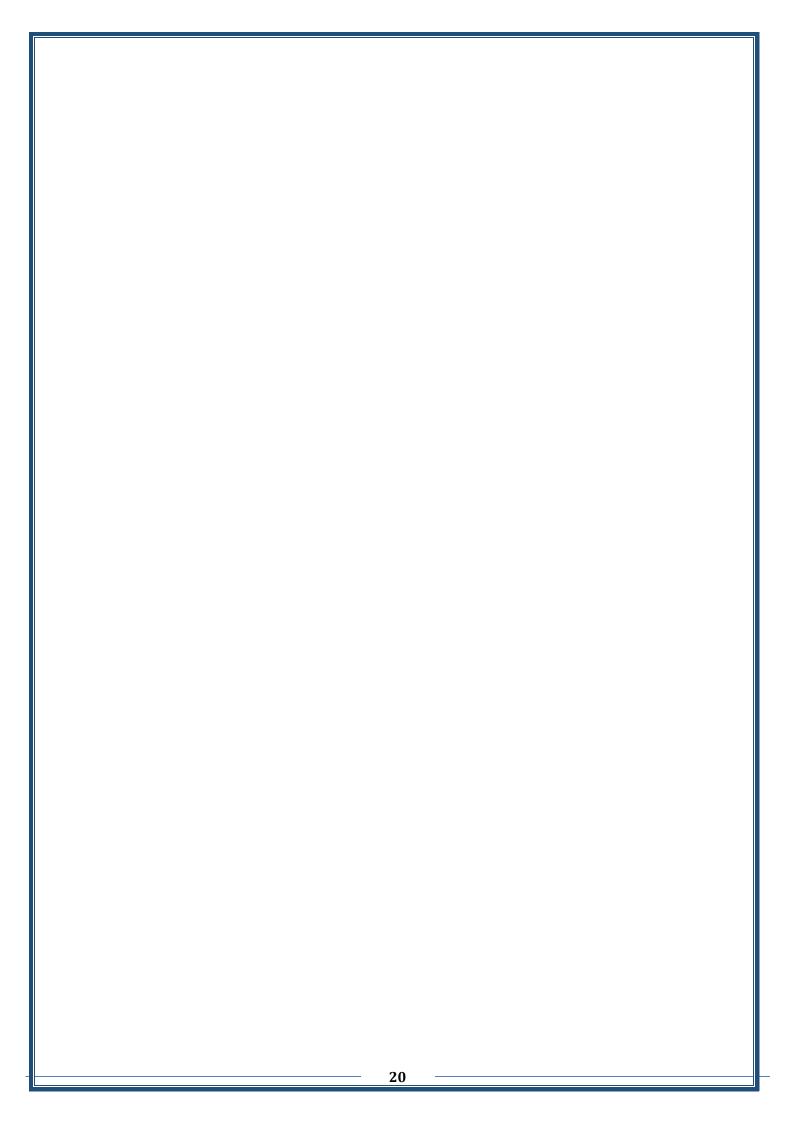

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

1. Program Description							
Year/Level Course Code Course Name Credit Hours							
2 nd year		Short story	theoretical	practical			
			2	0			

2. Expected learning outcomes of the program

Knowledge

- 1. Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.
- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

Learning Outcomes

- 1. **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.
- 4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: **
- Understanding modern teaching methods and their use in diversifying the learning process.
- Familiarity with various assessment tools such as tests, projects, and group activities.
- The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields.

Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities.

Skills **Learning Outcomes** 1. **writing correct sentences skills: ** - Students are trained in basic - Understanding and applying basic linguistic and grammatical language skills such as precise sentence writing. rules in sentence writing. - Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and accurately listening skills to be able to deal in writing. with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** reading skills and strategies, - Developing students' ability to understand texts more deeply and guiding them through effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis, techniques, and vocabulary content prediction, and inference. - Enhancing vocabulary skills by acquiring new words and usage skills. - Developing students' writing applying them in reading. abilities in composing research papers and reports, emphasizing 2. **writing skills: ** the extraction of facts and - Enhancing students' ability to write research papers and reports fostering their ability to proficiently and systematically. - Developing the skill of extracting facts and incorporating them distinguish between into writing logically and persuasively. perspectives and established - Strengthening the ability to distinguish between perspectives and truths. established facts and applying that in academic writing. These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts. Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development. **Ethics Learning Outcomes** - The student should describe 1. **Understanding the Importance of Learning English: ** the importance of learning the - Students' ability to describe the importance of learning English in English language. daily life and professional settings. - The student should participate - Clarifying the benefits of English language proficiency in global in departmental activities. communication and opening new opportunities in scientific, social, and cultural fields. 2. **Participation in Classroom and Extracurricular Activities: ** - Engaging actively in activities that reflect social interaction and

- Enhancing communication skills and fostering positive social

collaboration with classmates.

relationships within the classroom.

	These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.
- The student should encourage	1. **Promoting Discipline and Quietness in the Classroom: **

development of the language.	- Students' ability to understand and appreciate the role of scholars
	and thinkers in the development of language and culture.
	- Enhancing cultural and social awareness and fostering
	appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.

- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas

of knowledge within the specialization.

- Provision of a comprehensive library including information resources, facilities, and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers, graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and

employers for necessary adjustments.

- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Instr. Wallada Abdul Razzaq Eyada Wallada.en.hum@uodiyala.edu.iq

Asst. Inst. Yousif Ali Yousif yousuf.en.hum.@uodiyala.edu.iq

8. Course Objectives

Course Objectives

- A- The ability of students to understand the short story.
- B- The ability of students to criticize and analyze the short story.
- c- The ability of students to know English literature and the most important Eng stories.
- D- The ability of students to understand literary theories and schools of literature

9. Teaching and Learning Strategies

Strategy

- 1. E-learning method using PowerPoint and video presentation.
- 2. Discussion method.
- 3. Encourage students to make discussion groups during lectures.

1. Program Description								
Year/Level	Course Code	Course Name		Credit Hours				
2023-2024		Academic writing	theoretical	practical				

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and

pronunciation of words in the

English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

Learning Outcomes 1. **Knowledge and Understanding of Linguistic Rules and

- Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

1

1

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. - Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

- The student should
- 1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation

- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily a monthly exams, preparation, daily participation, and reports. Each of these activities contributes total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades each component. For example:

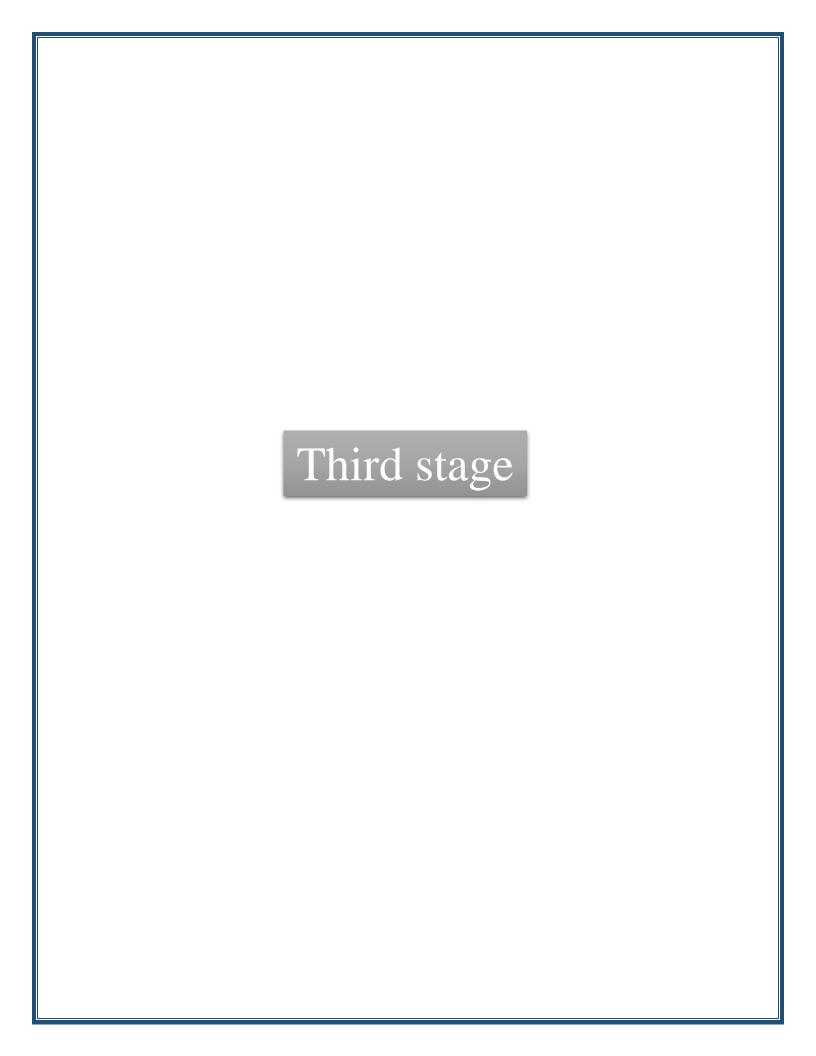

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student' annual grade.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

'he annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.
- o calculate the annual grade, you would typically determine the weighted average of the grades arned in each component. For example:

annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

his formula combines the weighted percentages of each component to determine the student's verall annual grade.

1. Program Description							
Year/Level Course Code Course Name Credit Hours							
theoretical practical							
Third		Grammar	2	1			

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the

English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

Learning Outcomes 1. **Knowledge and Understanding of Linguistic Rules and

- Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

- The student should
- 1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

8. Course Objectives

Course Objectives

- 1.Teaching students the rules of English grammar and contributing to professional preparation of English language students.
- 2. Providing students with the necessary information to form grammatically correct sentences.
- 3.Identifying the different parts of speech, their features, and types of sentences and their patterns starting from simple sentences to complex sentences.
- 4.Providing the students with detailed information about the components sentences and the syntactic structure of sentences from a grammatical perspective.
- 5. Providing students with the information and skills necessary to know and understand the English language and prepare them to engage in social communication with English speakers.

9. Teaching and Learning Strategies

Strategy

- Brainstorming method
- Method of questioning and discussion
- PowerPoint presentations

10. Course Structure

Week	Hours	Required	Unit or subject	Learning	Evaluation
		Learning	name	method	method
		Outcomes			
First	3	Know and learn the elements of building the grammatical sentence	Sentence Elements	Lecturing and Discussion	-Oral & Written Tests -Homework -Exercises
Second	3	Know and learn the parts of speech, their types and functions	Parts of speech	Lecturing and Discussion	-Oral & Written Tests -Homework -Exercises
Third	3	Learn and use pro-forms to replace different elements in sentences	Pro-forms	Lecturing and Discussion	-Oral & Written Tests -Homework -Exercises
Fourth	3	Know the Structures of affirmative, negative, and interrogative sentences	Question and Negation	Lecturing and Discussion	-Oral & Written Tests -Exercises
Fifth	3	Identifying Verbs, types verbs, and their usage	Verbs	Lecturing and Discussion	-Oral & Written Tests -Exercises

Sixth	3	Identifying verb phrases, their types, characteristics, and functions	Verb Phrase	Lecturing and Discussion	-Oral & Written Tests -Homework -Exercises
Seventh	3	Understanding the relation between tense, verb forms, and verb aspect: continuous or non-continuous	Time &Tense /Aspect	Lecturing and Discussion	-Oral & Written Tests -Homework -Exercises
Eighth	3	Understanding past & present tense	Past & Present Tense	Lecturing and Discussion	-Oral & Written Tests -Homework -Exercises
Ninth	3	Identifying the future forms	The Future	Lecturing and Discussion	-Oral & Written Tests -Exercises
Tenth	3	Identifying the form of the verb	Mood	Lecturing and Discussion	-Oral & Written Tests -Exercises
Eleventh	3	Identifying the types and uses of auxiliaries	Modal Auxiliaries	Lecturing and Discussion	-Oral & Written Tests -Exercises
Twelfth	3	Identifying the nouns and their types – How to form singular and plural nouns	Noun Types	Lecturing and Discussion	-Oral & Written Tests -Homework -Exercises
hirteenth	3	Identifying noun phrases: their structure, constituent elements, and arrangement	Noun phrase &Determiners Types	Lecturing and Discussion	-Oral & Written Tests -Exercises

ourteenth	3	Identifying the types of quantifiers	Quantifiers	Lecturing and Discussion	-Oral & Written Tests -Exercises
Fifteenth	3	Understanding the types of reference	Reference Generic/ Specific	Lecturing and Discussion	-Oral & Written Tests -Exercises
Sixteenth	3	Understanding how to refer to proper nouns	Unique Reference	Lecturing and Discussion	-Oral & Written Tests -Exercises
renteenth	3	Identifying the contrast between singular and plural forms of nouns	Number	Lecturing and Discussion	-Oral & Written Tests -Exercises

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

12. Learning and Teaching Resources	
Required textbooks (curricular books, if any)	-A University Grammar of English by Quirk
	& C. T. M. I

Linguistics

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and

pronunciation of words in the

English language.

third

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the

- 1. **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

2

1

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.

English language.	Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	, ,
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	 Understanding modern teaching methods and their use in
	diversifying the learning process.
	 Familiarity with various assessment tools such as tests,
	projects, and group activities.
	- The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	 The ability to construct coherent and accurate sentences.
develop their speaking and	 Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.
deal with communication	
situations effectively.	2. **speaking and listening skills: **
	 Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.
- Providing students with	1. **reading skills: **
reading skills and strategies,	Developing students' ability to understand texts more deeply

guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. and effectively.

- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of

 The student should 						
encourage their classmates to						
maintain quietness in the						
classroom.						

 The student should appreciate the contributions of scholars and theorists in the development of the language. community and collaboration within their academic environment.

- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.

- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.

- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment

results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
 - Development of Learning and Teaching Strategies: Enhancing the program

curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Improving oral expression skills and the ability to communicate clearly and effectively. Boosting students' confidence to speak in front of others and engage in social and educational situations.
listening skills to be able to deal with communication	 Enhancing students' ability to express ideas clearly and accurately in writing. 2. **speaking and listening skills: ** Developing listening skills to effectively understand content. Improving oral expression skills and the ability to communicate clearly and effectively. Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate

language and world literature.

teaching and assessing the

Providing students with

1. **reading skills: **

reading skills and strategies, guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

- Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths.
- Developing students' ability to understand texts more deeply and effectively.
- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and

	professional contexts effectively while also fostering a sense of
	community and collaboration within their academic environment.
- The student should	1. **Promoting Discipline and Quietness in the Classroom: **
encourage their classmates to	 Encouraging students to maintain quietness in the classroom

	 Enhancing cultural and social awareness and fostering
	appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.

- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.

- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment

results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
 - Development of Learning and Teaching Strategies: Enhancing the program

curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Course Description Form

1. Course Name: Listening & Speaking 2. Course Code: 3. Semester / Year: 2023-2024 4. Description Preparation Date: 17/9/2023 5. Available Attendance Forms: Third Year Students 6. Number of Credit Hours (Total) / Number of Units (Total) (60)hr. 7. Course administrator's name (mention all, if more than one name) Name: Instr. Hind Tahseen Hameed / Assist. Instr. Elaf Saad Bustan Email: hind.en.hum@uodiyala.edu.iq / elaf.en.hum@uodiyala.edu.iq 8. Course Objectives **Course Objectives** Develop listening and speaking skills Improving students ability ' to communicate effectively in spoken language with a reasonable degree of fluency and accuracy in settings and different social genres Various social meetings Increase fluency and confidence in speaking and Familiarizing students with the ways native speakers pronounce and enunciate different language units. Developing students' abilities to assimilate meaning and comprehend maximum number of

sentences	in	natura
contexts.		

9. Teaching and Learning Strategies

Strategy

- Encouraging active listening: Teach students active listening techniques such as maintaining eye contact, asking questions, and paraphrasing to ensure comprehension.
- Pair and group discussions: Encourage students to engage in conversations with their peers, actively listening and responding to each other.
- Role-playing exercises: Use role-playing to simulate real-life situations and enhance listening skills.
- Audio recordings and podcasts: Play audio recordings or podcasts that require active listening and comprehension.
- Engaging in meaningful conversations: Create opportunities for students to engage in conversations that promote critical thinking and expression of ideas.
- Common use of phrases used on a daily basis among native speakers of the language.
- Providing linguistic support and correct instructions to students regarding vocabulary, grammar, and adaptation to different accents.
- Urging students to participate in direct communication by training students to express their opinion and disagreement with other speakers.
- Increase cultural awareness by discussing cultural topics of multiple sources and differences.
- Resolving exercises, assignments and small class discussions.

11. Course Evaluation

The annual grade consists of two components:

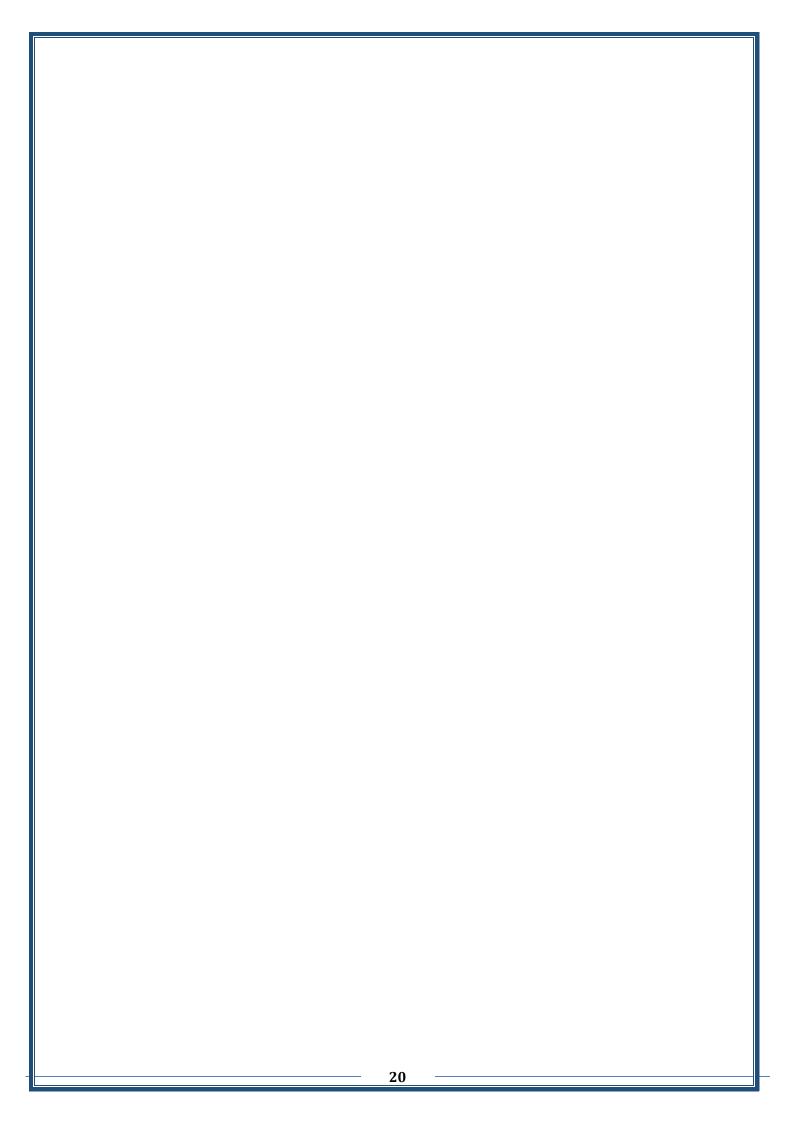

- 1. **Yearly Grade (50%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (50%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

12. Learning and Teaching Resources

			theoretical	practical				
Third		Methodology	2	1				

Grammar, and Articulation of Words: **

2. Expected learning outcomes of the program

1. Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the

English language.

Knowledge

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the

- 1. **Knowledge and Understanding of Linguistic Rules and
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.

English language.	Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	, ,
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	 Understanding modern teaching methods and their use in
	diversifying the learning process.
	 Familiarity with various assessment tools such as tests,
	projects, and group activities.
	- The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	 The ability to construct coherent and accurate sentences.
develop their speaking and	 Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.
deal with communication	
situations effectively.	2. **speaking and listening skills: **
	 Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.
- Providing students with	1. **reading skills: **
reading skills and strategies,	Developing students' ability to understand texts more deeply

guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. and effectively.

- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of

- The student should
encourage their classmates to
maintain quietness in the
classroom.

 The student should appreciate the contributions of scholars and theorists in the development of the language. community and collaboration within their academic environment.

- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.

- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.

- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment

results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
 - Development of Learning and Teaching Strategies: Enhancing the program

curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Course Description Form

1. Course Name:

Pedagogy and Curriculum Innovations

2. Course Code:

3. Semester / Year:

2023-2024

4. Description Preparation Date:

17/9/2024

5. Available Attendance Forms:

Full Attendance / Third-Year Students

6. Number of Credit Hours (Total) / Number of Units (Total)

3 hours (90 hours) and 4 units (120 units)

7. Course administrator's name (mention all, if more than one name)

Instr. Shurooq Talab Jaafar/ Assist. Instr. Mohammed Qais Abdulraheem shorouq.en.hum@uodiyala.edu.iq / mohemmedqais.env.hum@uodiyala.edu.iq

8. Course Objectives

Course Objectives

- Understanding the old and new methods of teaching in terms of the role of the teacher in each method, its advantages and disadvantages/goals, and the teaching steps for each method.
- Knowing how to teach the four skills of speaking, listening, reading and comprehension, as well as how to teach other skills such as vocabulary, sounds and grammar.
- Distinguishing the difference between the curriculum and vocabulary, types of vocabulary and Bloom's taxonomy.
- Getting to know the different types of curricula and their characteristics.

9. Teaching and Learning Strategies

Strategy

1) Teaching Methods

- Learn about different teaching methods, their advantages and disadvantages.
- Understand the role of the instructor in each method.

2) Curriculum vs. Syllabus

- Distinguish between curriculum and syllabus.
- Explore different types of curriculums and Bloom's Taxonomy.

3) Course Objectives:

 Define the specific learning objectives for the course, including listening, speaking, reading, and writing skills.

4) Teaching and Learning Methods:

Explore various teaching and learning methods.

5) Lecture Delivery:

 Learn how to deliver effective lectures in person, using posters and presentation tools.

6) Assessment:

 Understand the different types of assessments, including written and daily tests.

7) Transferable Skills:

- Develop general and transferable skills related to employability and personal development, such as:
 - o Communication and speaking in English
 - Listening to English and developing speaking skills
 - Continuous writing
 - Continuous reading

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

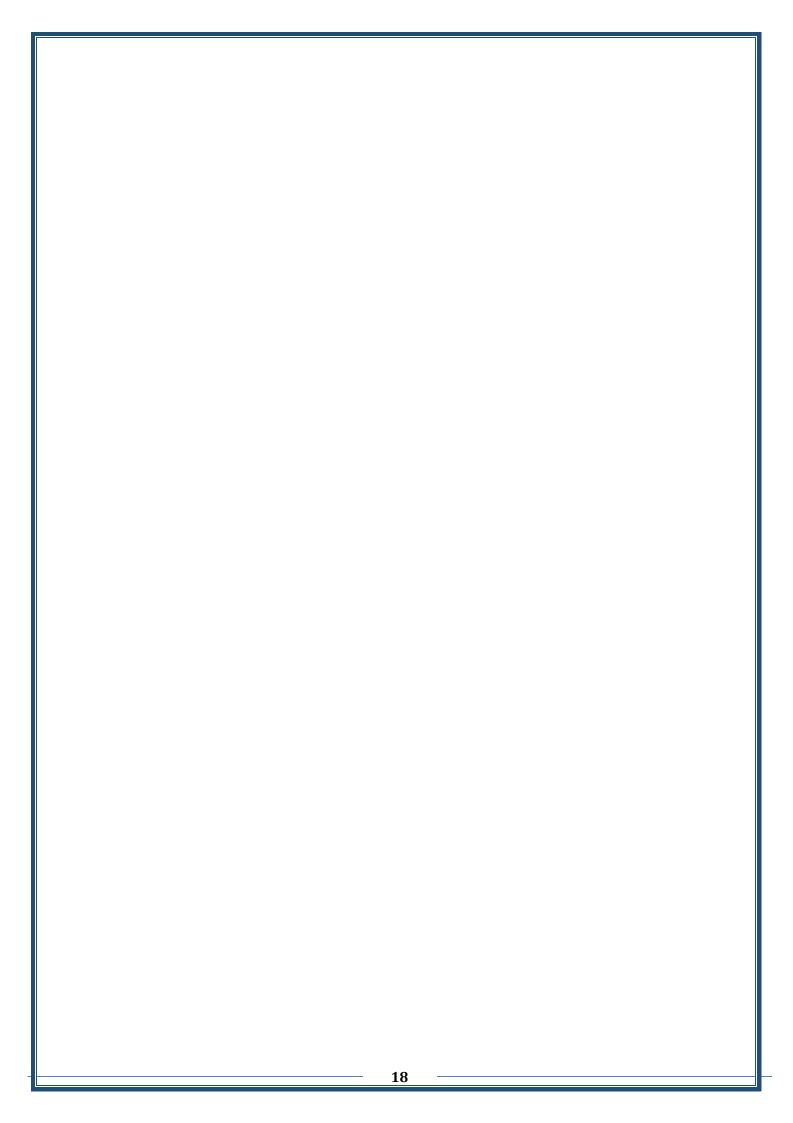

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

Grammar, and Articulation of Words: **

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the

English language.
2. Knowledge and

Knowledge

- understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the

- 1. **Knowledge and Understanding of Linguistic Rules and
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.

English language.	Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	, ,
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	 Understanding modern teaching methods and their use in
	diversifying the learning process.
	 Familiarity with various assessment tools such as tests,
	projects, and group activities.
	- The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	 The ability to construct coherent and accurate sentences.
develop their speaking and	 Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.

situations effectively.	2. **speaking and listening skills: **
	 Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.
- Providing students with	1. **reading skills: **
reading skills and strategies,	Developing students' ability to understand texts more deeply

guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. and effectively.

- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of

- The student should
encourage their classmates to
maintain quietness in the
classroom.

 The student should appreciate the contributions of scholars and theorists in the development of the language. community and collaboration within their academic environment.

- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.

- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.

- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment

results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
 - Development of Learning and Teaching Strategies: Enhancing the program

curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

teaching and assessing the

Providing students with

1. **reading skills: **

reading skills and strategies, guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

- Developing students' writing abilities in composing research papers and reports, emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths.
- Developing students' ability to understand texts more deeply and effectively.
- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives
 and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and

	professional contexts effectively while also fostering a sense of
	community and collaboration within their academic environment.
- The student should	1. **Promoting Discipline and Quietness in the Classroom: **

	 Enhancing cultural and social awareness and fostering

3. Teaching and Learning Strategies

 Providing students with the fundamentals and topics related to knowledge and systems outlined in A.

appreciation for the intellectual and cultural contributions of others.

- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.

- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and

the department, as well as details about available resources and support services.

- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.

- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
 - Development of Learning and Teaching Strategies: Enhancing the program

curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Twenty-Ninth		Exam			1631
Thirtieth	2 hours	Review			

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

12. Learning and Teaching Resources	
Required textbooks (curricular books, if any)	*English Poetry of the Nineteenth Century I *English Poetry of the Nineteenth Century II
Main references (sources)	*The Cambridge Introduction To British Romantic Poetry *The Cambridge Companion to Victorian poetry

Recommended books and references (scientific	
journals, reports)	
Electronic References, Websites	Poem analysis.com

2. Expected learning outcomes of the program

Knowledge **Learning Outcomes** 1. Knowledge and

- understanding of linguistic rules, grammar, and pronunciation of words in the English language.
- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

- 1. **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

The student should describe the importance of learning the English language.

 The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

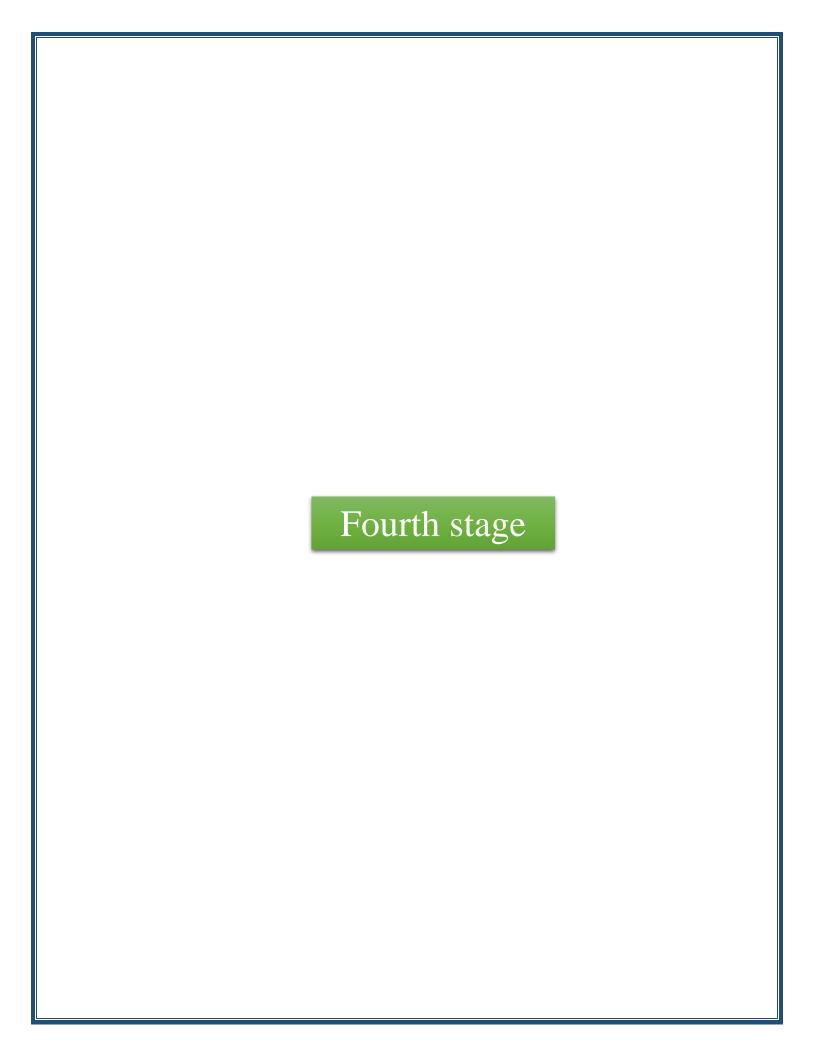

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

12. Learning and Teaching Resources						
Required textbooks (curricular books, if any)	Academic Writing: A Handbook International by Stephen Bailey

1. Program Description				
Year/Level	Course Code	Course Name	Credit Hours	
			theoretical	practical
Fourth		Assessment	2	0

Grammar, and Articulation of Words: **

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the

Knowledge

English language.

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

1. **Knowledge and Understanding of Linguistic Rules and

- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise - Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

The student should describe the importance of learning the English language.

 The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

5. Faculty

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

Fourth		Grammar	2	1						

Grammar, and Articulation of Words: **

2. Expected learning outcomes of the program

Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the

Knowledge

English language.

- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

1. **Knowledge and Understanding of Linguistic Rules and

 Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise - Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

- The student should
- 1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

4. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

5. Learning and Teaching Resources						
Required textbooks (curricular books, if any)	Quirk, R. (2016). A university gramm of English. Pearson Education India					
Main references (sources)	Quirk, R. (2016). A university gramm of English. Pearson Education India

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation

- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Course Description Form

1. Course Name:

Linguistics

- 2. Course Code:
- 3. Semester / Year:

2023-2024

4. Description Preparation Date:

17/9/2023

5. Available Attendance Forms:

Whole attendance (Fourth year students)

6. Number of Credit Hours (Total) / Number of Units (Total)

90

7. Course administrator's name (mention all, if more than one name)

Name: Inst. Zainab Saad Mohammed (PhD)/ Assist. Instr. Reham Abdulkareem Email: Zainab.en.hum@uodiyala.edu.iq / reham.en.hum@uodiyala.edu.iq

8. Course Objectives

- Course Objectives -Learn about linguistics in general, its components and specializations.
 - -Learn about semantics and the key ideas that comprise this field of study.
 - -Learn about pragmatics, its concepts, and its role in interpreting and understand speech and text.
 - Understanding the nature of the discourse and how to interpret it in light of the ideas that it must include
 - Identifying how a child acquires his first language.
 - -Studying the key techniques for acquiring a second language.
 - -Understanding how much culture affects language.

9. Teaching and Learning Strategies

Strategy

- Extensive explanation of the material.
- -Asking students questions that are both analytical and informative.
- -Including students in the process of explaining the content.

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

2. Expected learning outcomes of the program

Learning Outcomes 1 Knowledge and Linderstanding of Linguistic Rule

- 1. Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.
- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

- **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.

Learning Outcomes

- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. - Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

- The student should
- 1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.

- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Thirtieth	3	The second monthly test: Assessing students' comprehension, analysis, and object criticism skills	Testing student wit the remaining chapters of the nov	Written Test	Test

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 40% of the annual grade.
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

12.	Learning	and	Teaching	Resources
-----	----------	-----	----------	-----------

Required textbooks (curricular books, if any)	Lord of the Flies by William Golding Animal Farm by George Orwell

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.

- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment

results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the
 job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
 - Development of Learning and Teaching Strategies: Enhancing the program

curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

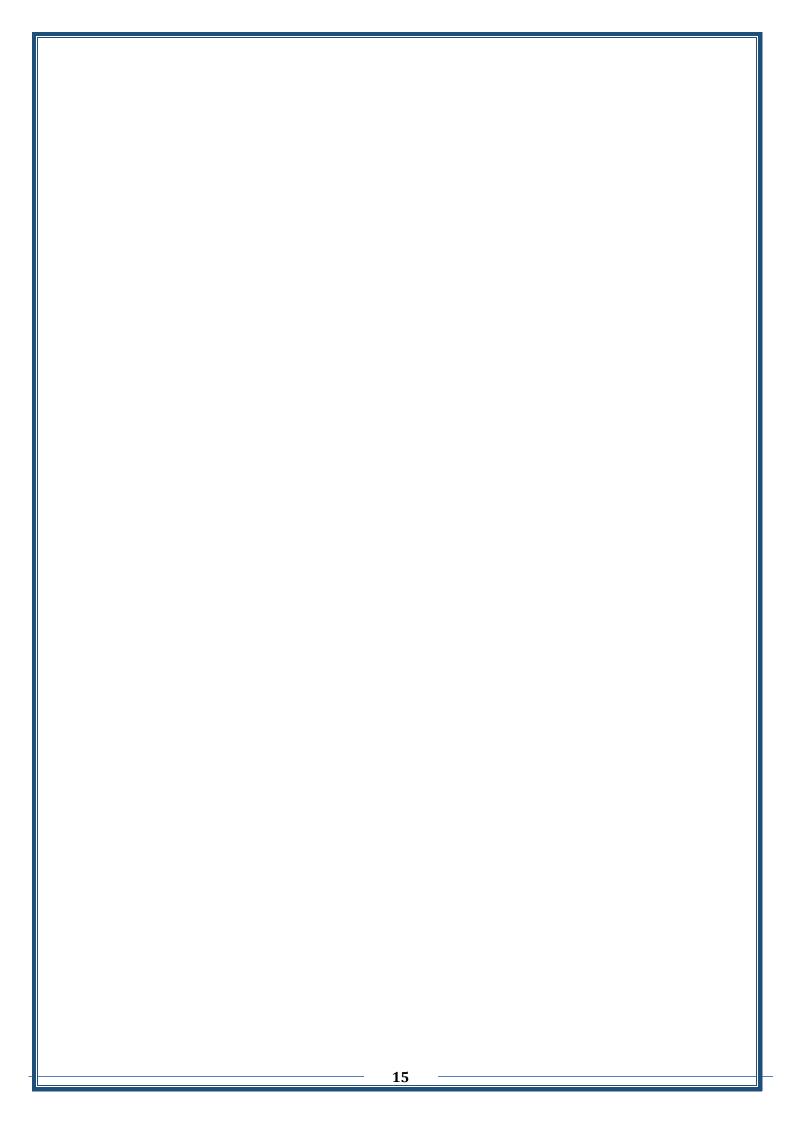

- 1. **Yearly Grade (40%)**: This portion is distributed among various activities including daily and madily participation, and reports. Each of these activities contributes to a total of 40% of the annual
- 2. **Final Exam Grade (60%)**: The final exam contributes 60% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earn example:

Annual Grade = (0.4 * Yearly Grade) + (0.6 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall a

2. Expected learning outcomes of the program

Knowledge Learning Outcomes

- 1. Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.
- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the

- 1. **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.

English language.	Analyzing the most important literary and intellectual outputs of
	these literary figures and thinkers.
	,,,,,,
	4. **Knowledge and Understanding of Teaching Methods,
	Assessment Tools, and Evaluation: **
	 Understanding modern teaching methods and their use in
	diversifying the learning process.
	 Familiarity with various assessment tools such as tests,
	projects, and group activities.
	The ability to evaluate students' progress and understand the
	extent to which they achieve learning objectives in various linguistic
	and literary fields.
	Achieving these outcomes enhances students' skills in
	understanding and using the English language more effectively.
	Furthermore, it contributes to the comprehensive development of
	their academic and communication abilities.
Skills	Learning Outcomes
- Students are trained in basic	1. **writing correct sentences skills: **
language skills such as precise	 Understanding and applying basic linguistic and grammatical
sentence writing.	rules in sentence writing.
- Students are trained to	 The ability to construct coherent and accurate sentences.
develop their speaking and	 Enhancing students' ability to express ideas clearly and
listening skills to be able to	accurately in writing.
deal with communication	
situations effectively.	2. **speaking and listening skills: **
	 Developing listening skills to effectively understand content.
	- Improving oral expression skills and the ability to communicate
	clearly and effectively.
	Boosting students' confidence to speak in front of others and
	engage in social and educational situations.
	These skills contribute to enhancing students' ability to communicate
	effectively in English, thereby improving their academic performance
	and preparing them for life and professional situations that require
	strong language skills.
- Providing students with	1. **reading skills: **
reading skills and strategies,	Developing students' ability to understand texts more deeply

guiding them through mechanical reading, reading techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. and effectively.

- Learning advanced reading strategies such as text analysis, content prediction, and inference.
- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

- The student should describe the importance of learning the English language.
- The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of

- The student should
encourage their classmates to
maintain quietness in the
classroom.

 The student should appreciate the contributions of scholars and theorists in the development of the language. community and collaboration within their academic environment.

- 1. **Promoting Discipline and Quietness in the Classroom: **
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.

- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and

providing an opportunity for questions and inquiries.

- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.
- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.

- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic promotions and advancing their professional careers.
- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.

- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.
- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program
 curriculum and teaching methodologies to promote student interaction, engagement,

and practical skills development.

- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation
- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

11. Course Evaluation

The annual grade consists of two components:

- 1. **Yearly Grade (30%)**: This portion is distributed among various activities including daily and monthly exams, preparation, daily participation, and reports. Each of these activities contributes to a total of 30% of the annual grade.
- 2. **Final Exam Grade (70%)**: The final grade contributes 70% to the annual grade.

To calculate the annual grade, you would typically determine the weighted average of the grades earned in each component. For example:

Scientific evaluation grade (30%), educational evaluation grade (30%), school administration evaluation grade (10%), final grade (70%)

Annual Grade = (0.3 * Yearly Grade) + (0.7 * Final Exam Grade)

This formula combines the weighted percentages of each component to determine the student's overall annual grade.

1. Program Description								
Year/Level	Year/Level Course Code Course Name Credit Hours							
			theoretical	practical				

2. Expected learning outcomes of the program

Knowledge Learning Outcomes

- Knowledge and understanding of linguistic rules, grammar, and pronunciation of words in the English language.
- 2. Knowledge and understanding of common linguistic and literary expressions in the English language and the analysis of their texts.
- 3. Knowledge of prominent writers, thinkers, and linguists in the English language heritage, understanding their major literary and intellectual contributions.
- 4. Knowledge and understanding of the most important modern teaching methods, in addition to the important assessment, evaluation, and language testing methods used in teaching and assessing the English language.

- **Knowledge and Understanding of Linguistic Rules and Grammar, and Articulation of Words: **
- Students' ability to analyze sentences and identify verbs, nouns, pronouns, and articles.
- Understanding the uses and patterns of sentences in the English language.
- The ability to recognize the correct pronunciation of words and understand the differences between different sounds.
- 2. **Knowledge and Understanding of Linguistic and Literary Expression Methods: **
- Understanding linguistic expression methods such as description, interrogation, expressing opinions, and expressing feelings.
- Analyzing literary texts and understanding symbols and hidden meanings within them.
- Recognizing various literary styles such as narrative, poetry, drama, and literary criticism.
- 3. **Knowledge of Prominent Literary Figures, Thinkers, and Linguists: **
- Understanding the major works of ancient and contemporary literary figures and thinkers.
- Identifying their influence on the development of the English language and world literature.
- Analyzing the most important literary and intellectual outputs of these literary figures and thinkers.

4. **Knowledge and Understanding of Teaching Methods, Assessment Tools, and Evaluation: ** - Understanding modern teaching methods and their use in diversifying the learning process. - Familiarity with various assessment tools such as tests, projects, and group activities. - The ability to evaluate students' progress and understand the extent to which they achieve learning objectives in various linguistic and literary fields. Achieving these outcomes enhances students' skills in understanding and using the English language more effectively. Furthermore, it contributes to the comprehensive development of their academic and communication abilities. **Skills Learning Outcomes** 1. **writing correct sentences skills: ** Students are trained in basic language skills such as precise Understanding and applying basic linguistic and grammatical sentence writing. rules in sentence writing. Students are trained to - The ability to construct coherent and accurate sentences. develop their speaking and - Enhancing students' ability to express ideas clearly and listening skills to be able to accurately in writing. deal with communication situations effectively. 2. **speaking and listening skills: ** - Developing listening skills to effectively understand content. - Improving oral expression skills and the ability to communicate clearly and effectively. - Boosting students' confidence to speak in front of others and engage in social and educational situations. These skills contribute to enhancing students' ability to communicate effectively in English, thereby improving their academic performance and preparing them for life and professional situations that require strong language skills. - Providing students with 1. **reading skills: ** - Developing students' ability to understand texts more deeply reading skills and strategies, guiding them through and effectively. mechanical reading, reading - Learning advanced reading strategies such as text analysis,

techniques, and vocabulary usage skills.

 Developing students' writing abilities in composing research papers and reports,
 emphasizing the extraction of facts and fostering their ability to distinguish between perspectives and established truths. content prediction, and inference.

- Enhancing vocabulary skills by acquiring new words and applying them in reading.
- 2. **writing skills: **
- Enhancing students' ability to write research papers and reports proficiently and systematically.
- Developing the skill of extracting facts and incorporating them into writing logically and persuasively.
- Strengthening the ability to distinguish between perspectives and established facts and applying that in academic writing.

These skills contribute to improving students' performance in reading and writing, enabling them to express their ideas effectively and convincingly in academic and non-academic contexts.

Additionally, they increase their ability to comprehend and analyze information better, thus enhancing their personal and professional development.

Ethics

The student should describe the importance of learning the English language.

 The student should participate in departmental activities.

Learning Outcomes

- 1. **Understanding the Importance of Learning English: **
- Students' ability to describe the importance of learning English in daily life and professional settings.
- Clarifying the benefits of English language proficiency in global communication and opening new opportunities in scientific, social, and cultural fields.
- 2. **Participation in Classroom and Extracurricular Activities: **
- Engaging actively in activities that reflect social interaction and collaboration with classmates.
- Enhancing communication skills and fostering positive social relationships within the classroom.

These aspects of learning contribute to students' overall development, enabling them to navigate various social and professional contexts effectively while also fostering a sense of community and collaboration within their academic environment.

The student should

1. **Promoting Discipline and Quietness in the Classroom: **

encourage their classmates to maintain quietness in the classroom.

- The student should appreciate the contributions of scholars and theorists in the development of the language.
- Encouraging students to maintain quietness in the classroom contributes to improving the learning environment and enhances focus and attention during lessons.
 - Developing students' respect and self-discipline skills.
- 2. **Appreciating the Contributions of Scholars and Thinkers: **
- Students' ability to understand and appreciate the role of scholars and thinkers in the development of language and culture.
- Enhancing cultural and social awareness and fostering appreciation for the intellectual and cultural contributions of others.

3. Teaching and Learning Strategies

- Providing students with the fundamentals and topics related to knowledge and systems outlined in A.
- Clarifying and explaining course materials by the teaching staff using various classroom techniques to capture students' attention.
- Refining students' self-knowledge by emphasizing the completion of homework assignments related to the study materials.
- Encouraging students to engage in self-learning and exploration of knowledge by visiting libraries and online platforms to acquire additional knowledge related to their subjects.
- Enhancing students' critical and creative thinking skills through involvement in additional educational courses related to their academic subjects.

4. Evaluation methods

- Daily, monthly, and yearly tests with varied questions for the academic subjects.
- Participation grades for challenging competition questions for students.
- Assignment grades assigned for homework tasks.
- Conducting research and reports.
- Field visits to schools to evaluate students' practical training.

Professional Development

Mentoring new faculty members

- Provision of orientation materials: Comprehensive orientation materials are provided, including information about academic and administrative policies and procedures within the institution and the department, as well as details about available resources and support services.
- Orientation sessions: Orientation sessions are organized for new members, visitors, and non-full-time staff, which involve reviewing policies, procedures, and available resources, and providing an opportunity for questions and inquiries.
- Assignment of mentors: Mentors can be appointed from among experienced faculty members to assist new members, visitors, and non-full-time staff in adapting to the work environment and understanding the academic and administrative culture within the institution.

- Social integration support: Support should be provided for new members, visitors, and non-full-time staff to integrate into the academic community through opportunities for communication and interaction with colleagues, staff, and students.
- Monitoring and evaluation: Regular monitoring of the performance of new members, visitors, and non-full-time staff should be conducted, and feedback should be provided to help them improve their performance and achieve their academic goals.
- Capacity development: Training opportunities and workshops should be provided for new members, visitors, and non-full-time staff to enhance their academic, educational, and research skills.

Professional development of faculty members

- Identifying Needs and Setting Goals:
- 1. Needs Assessment: Conducting surveys and interviews with faculty members to identify their developmental and professional needs.
- 2. Goal Setting: Establishing individual and institutional development goals based on the identified needs.
- Developing Educational and Teaching Strategies:
- 1. Workshops and Training Sessions: Organizing workshops and training courses to enhance teaching skills and utilize active and innovative learning techniques.
- 2. Participation in Conferences and Seminars: Encouraging faculty members to participate in academic conferences and seminars to exchange knowledge and gain new experiences.
- 3. Individual Guidance: Providing individual guidance to faculty members to support them in achieving their developmental and professional goals.
- Assessing Learning and Teaching Outcomes:
- 1. Performance Evaluation: Implementing multiple assessment methods to measure the performance of faculty members in teaching and learning.
- 2. Providing Feedback: Offering appropriate feedback to faculty members based on assessment results to improve their performance.
- Professional Development:
- 1. Participation in Professional Development Programs: Providing opportunities for participation in external and internal professional development programs to enhance faculty members' skills.
- 2. Promotions and Academic Advancements: Supporting faculty members in obtaining academic

promotions and advancing their professional careers.

- Program Monitoring and Evaluation:
- 1. Evaluation of Development Programs: Regularly evaluating the effectiveness of development and educational programs and making necessary improvements.
- 2. Progress Monitoring: Monitoring the implementation of educational and teaching strategies and evaluating their impact on learning quality and student performance.
- Academic and Professional Guidance:
- 1. Academic Consultation Support: Providing support and guidance to faculty members in identifying their academic and professional goals and developing plans to achieve them.
- 2. Assistance in Research Development: Offering support and guidance to faculty members in developing innovative research programs and publishing results in prestigious scientific journals.

6. Acceptance Criterion

Requirements for enrolling in the undergraduate degree program (Bachelor's in English):

- Meeting the admission requirements set by the Ministry of Higher Education and Scientific Research.
- Holding a certificate of completion of secondary education or its equivalent from other countries.
- Expressing a desire to study in the chosen department.
- Passing the aptitude test, personal interviews, and tests related to readiness for the teaching profession (including medical examinations).

7. The most important sources of information about the program

- Teaching staff.
- Curriculum content.
- Availability of appropriate devices, equipment, materials, and software for the specialization.
- Alignment of learning resources with the specialization.

- Effective use of learning resources in the educational process.
- Availability, diversity, freshness, and coverage of books and journals in all areas of knowledge within the specialization.
- Provision of a comprehensive library including information resources, facilities,
 and specialized technical staff to serve the specialization.
- Subscription to electronic databases in the specialization field.
- Existence of an electronic content management system and availability of electronic materials.
- Availability of an electronic system for information retrieval in the library, in addition to electronic libraries.

8. Program Development Plan

- First Stage: Assessment and Needs Analysis
- Evaluation of the Current Program: Comprehensive review of the current program to identify strengths, weaknesses, opportunities, and threats.
- Market Needs Survey: Conducting surveys and interviews with employers,
 graduates, and faculty members to identify the skills and knowledge required in the job market.
- Second Stage: Setting Objectives and Strategies
- Setting Main Objectives: Identifying the main objectives for program development, such as improving educational quality, enhancing industry interaction, and increasing employment rates.
- Development of Learning and Teaching Strategies: Enhancing the program curriculum and teaching methodologies to promote student interaction, engagement, and practical skills development.
- Utilization of Educational Technology: Adopting e-learning and distance learning techniques to enhance the learning experience and expand access.
- Third Stage: Plan Implementation

- Faculty Training: Organizing training courses and workshops to develop faculty skills in using educational technologies and implementing updated curricula.
- Development of Educational Resources: Reframing educational resources and creating new instructional materials to align with the needs of the enhanced program.
- Performance Evaluation and Feedback: Conducting regular assessments of program performance and quality and collecting feedback from students, faculty, and employers for necessary adjustments.
- Fourth Stage: Continuous Monitoring and Improvement
- Results Evaluation and Program Updates: Monitoring program performance, measuring achievement of defined objectives, and implementing necessary improvements based on the results.
- Monitoring Industry and Academic Developments: Keeping abreast of developments in the academic field and job market and educational technology to ensure the continuous improvement of the program.
- Enhancing Collaboration with Industry and Community: Strengthening collaboration with employers and local entities to ensure program alignment with market requirements and provide training and employment opportunities for students.

Course Description Form

1. Course Name:

Translation

2. Course Code:

3. Semester / Year:

2023-2024

4. Description Preparation Date:

17/9/2023

5. Available Attendance Forms:

Full Time (Fourth year students)

6. Number of Credit Hours (Total) / Number of Units (Total)

60

7. Course administrator's name (mention all, if more than one name)

Name: Assist. Prof. Ahmed Adel Nouri / Instr. Immad Ahmed Farhood Email: ahmed.en.hum@uodiyala.edu.iq / emad.en.hum@uodiyala.edu.iq

8. Course Objectives

Course Objectives

- Contribute to the practical preparation of English language students, enable them to translate between English and Arabic and vice versa and understand important terms that enable them to benefit from them during the exercise of their specialization.
- Identify the different types and strategies of translation, their features and determinants, and train to translate texts in various fields.
- Providing students with the information and skills necessary to teach translation and its various types (teaching vocabulary - grammar pronunciation).

9. Teaching and Learning Strategies

Strategy

- Detailed Explanation of the Material
- Asking Questions that needs Analysis to Students
- Participating Students in Explaining the Material

10. Course Structure
