Definitions of Basic Terms in Teaching Methods

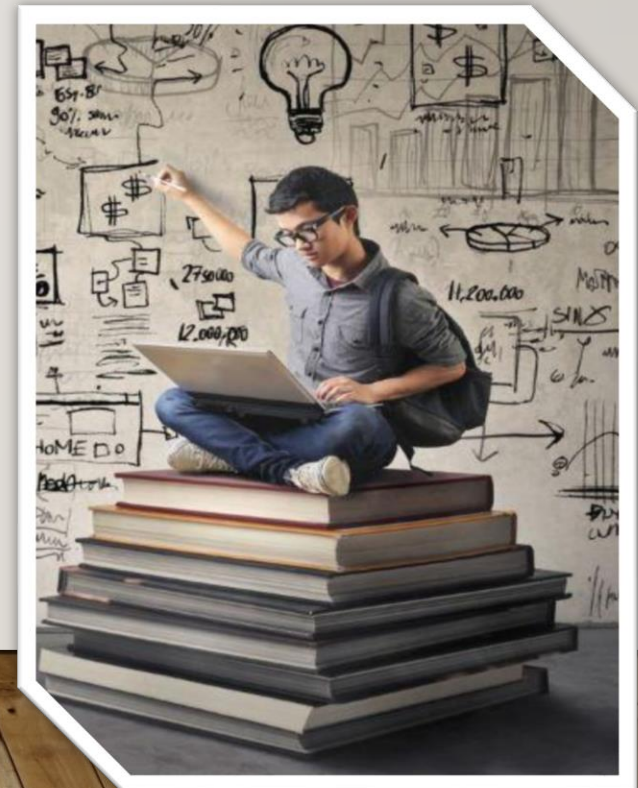

1. Teaching: the act or profession of a person who teaches something that is taught.

2. Learning is the process or experience of gaining knowledge or skill. An example of learning is a student understanding and remembering what they've been taught.

3. Education is the process of gaining knowledge (noun). An example of education is attending college and studying.

4. Approach is the theory/philosophy and principle underlying a particular set of teaching practices.

5. Method is a way of teaching a language which is based on systematic principles and procedures.

6. Technique is the implementation, which actually takes place in a classroom. It is a particular trick, stratagem, or contrivance used to accomplish an immediate objective. Technique must be consistent with a method and, therefore, in harmony with an approach as well.
